# KUMPATLA AASHRITHA SREE

+91 7995382997 | kumpatlaaashrithasree@gmail.com | Visakhapatnam, Andhra Pradesh, India

## PROFESSIONAL SUMMARY

Motivated B.Tech Artificial Intelligence & Data Science student aspiring to build a career as an AI Engineer. Strong foundation in Python, Machine Learning, Generative AI, RAG, SQL, and Flask. Completed an AI Engineer Internship at Symbiosis,

Rushikonda, where I developed an AI Video Summarizer for a Learning Management System (LMS). Interested in building practical AI applications, collaborating on software projects, and using Git, GitHub, and GitHub Copilot for efficient development.

## EDUCATION

- B.Tech – Artificial Intelligence & Data Science | Vignan's Institute of Information Technology | 2023–2027
- Intermediate – MPC | Sri Chaitanya Junior College | 2023
- SSC | Ideal E.M. High School | 2021

## RELEVANT COURSEWORK

Data Structures & Algorithms • Object-Oriented Programming • DBMS • Operating Systems • Computer Networks • Software Engineering • Artificial Intelligence • Machine Learning • Statistics for Data Analysis

## TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, Java, C
- **AI/ML:** Machine Learning, Generative AI, LLMs, RAG, Prompt Engineering
- **Frameworks & Libraries:** Flask, Pandas, NumPy, Matplotlib, Scikit-learn
- **Databases & Web:** MySQL, HTML, CSS, JavaScript
- **Developer Tools:** Git, GitHub, GitHub Copilot, VS Code
- **AI Tools:** ChatGPT, Claude AI

## EXPERIENCE

- **AI Engineer Intern | Symbiosis, Rushikonda**
- Developed an AI Video Summarizer for the institution's Learning Management System (LMS).
- Applied NLP and Generative AI techniques to generate concise summaries from educational video content.
- Worked on video/audio processing, speech-to-text conversion, summarization, testing, and AI feature integration.
- Improved content accessibility and supported more efficient learning through summarized educational material.

## PROJECTS

• **AI-Based Video Summarizer:** Built an AI-powered LMS application that extracts important information from educational videos and generates concise learning material. Technologies: Python, Speech-to-Text, NLP, Generative AI, Machine Learning.

• **Retrieval-Augmented Generation (RAG) Assistant:** Developed a document-based question-answering assistant using LLMs, semantic search, and retrieval-augmented generation. Technologies: Python, LLMs, RAG, NLP, Embeddings, Flask.

• **Insulin Buddy – AI-Assisted Healthcare Application:** Designed an AI-assisted application concept for diabetes management with glucose tracking, reminders, food recommendations, and insulin-related calculations. Technologies: Python, AI/ML, Data Handling, Application Development.

## HACKATHONS & ACHIEVEMENTS

• **Amaravati Quantum Valley Hackathon (AQVH:** Participated in a quantum technology-focused hackathon and explored innovative solutions to real-world problems.

• **Ideathon:** Selected among the **Top 20** teams for presenting an innovative idea and demonstrating problem-solving skills.

## CERTIFICATIONS

- Eduskills – Java Full Stack Developer
- Eduskills – Google Android Developer
- Eduskills – AWS AI-ML
- Eduskills – Google AI-ML
- NPTEL – Cloud Computing
- Cisco Networking Academy – Python Essentials 1

## STRENGTHS

Problem Solving • Data Analysis • Quick Learner • Attention to Detail • AI-Assisted Development • Adaptability • Continuous Learning
